

FORCE OF ATTRACTION

 5-10 minutes + questions and journal time

 Find a safe and appropriate place to experiment and follow all safety instructions from LearnLibre.com.

Materials

- Large bowl
- Water
- Glitter, confetti or small pieces of paper

Procedure

1. Fill $\frac{3}{4}$ of the bowl with water.
2. Pick up a small handful of glitter or confetti.
3. Slowly sprinkle it into the bowl.
4. Observe what happens.
